

## Catering Rider

If not communicated differently, we will arrive as a party of six (5 musicians, 1 sound engineer).

This catering rider is based upon customary standards and should be fulfilled at least substantially. We give our best on stage and are thankful for your support in this. Thank you very much in advance for your efforts!

### **From the arrival of the band until departure:**

- Small snacks, sandwiches and different kinds of fruit in the backstage room are very much appreciated at the arrival of the band.
- Drinks:
  - A reasonable selection of soft drinks (Coca Cola, Fanta, Sprite etc.)
  - Unlimited access to still water
  - A sufficient amount of coffee, tea, milk and sugar
  - Beer and white wine

### **Backstage room/wardrobe:**

We need a lockable, separated, heated room near the stage with a size of min. 18m<sup>2</sup>, where we can safely deposit our equipment, prepare for the show and - if need be - change clothes during the show. Reasonable seating and a lighted mirror should be provided. If possible, a bathroom is available in immediate vicinity.

### **Warm meal:**

After sound-check (or according to discussion with the band), the customer provides each band member with a warm, balanced meal (no fast food, no take-away). One of these meals must be vegetarian. This meal may also be consumed in a nearby restaurant, this at the expense of the customer.

### **During the show:**

- 1 liter of still water (non-sparkling) per band member
- 5 towels

**Please feel free to contact us with any further questions!**
